**DETAILED ACTION**

1. Applicant's Request for Continued Examination filed 12 June 2006 has been entered and considered.

2. Claims 1-13 and 15-26 are pending and presented for examination. Claim 15 has been amended.

3. Applicant's submission of references on form PTO-1449, filed 12 June 2006 has been considered. A signed copy of the form is attached.

4. Claims 1-13 and 15-26 are allowed. The claims are renumbered 1-25.

5. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or render obvious the limitations in claims 1 and 19, when taken in the context of the claims as a whole or specific to the lighting control system, wherein a ballast control module configured to communicate with a lighting ballast, a data processing module connected to the ballast control module via a wireless communications link, and a wireless internet control center wirelessly connected to the ballast control module via the data processing module and arranged to operate a plurality of utility operation applications are claimed. In addition, the ballast control module includes a potentiometer arranged to generate signals, voltages, and resistances to operate the lighting ballasts; a microcontroller arranged to convert internet protocol to local area network protocol and vice versa, and to control traffic flow, data storage and logic of the ballast control module, and an RF radio cartridge decoder arranged to connect portions of the ballast control module to the communications link, wherein the RF radio cartridge transmits data at multiple frequencies at both fast and slow transfer rates are also recited.

Moreover, evidence for modifying the prior art teachings by one of ordinary skill level in the art was not uncovered so as to result in the invention as recited in claims 1-13 and 15-26.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**

6. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
